SUMMARY

I'm a product designer who combines previous experience in tech sales, creative work and a master's in human-computer interaction to improve user-centric experiences.

EXPERIENCE

Test4Test.io · Founder, Product Designer

Mar 2026 – Present | Remote

- Redesigned the core user experience, increasing user satisfaction rate from 43% to 56% and leading to Test4Test's first paying customer
- Surveyed 22 users and conducted 3 user interviews, created new feature mockups in Figma and implemented changes with Codex/Claude AI

MattyOphotos · Founder, Photographer

Jan 2025 – Present | Los Angeles, CA

- Redesigned [main website](#) in Webflow to showcase photography work, leading to 14 customer bookings

Dell · Data Center Sales Executive

Jul 2022 – Sep 2024 | Austin, TX

- Prospected, led and closed over \$1.1 million in new business revenue annually
- Redesigned Dell's internal "BCI Blaster" tool to a user friendly, automated email system, reducing 30 hours of manual repetitive tasks per team per week
- Awarded #1 for persuading prospects to use Dell's data center/cloud assessment tool, converting Greenfield customers to Dell customers
- Mentored associates in cold calling via role playing and hosting workshops, resulting in their first booked appointments and increased activity

Samsung · B2B Sales Management Intern

Jun 2021 – Jul 2021 | Remote

- Supported pre-sales and cross-functional teams in Private 5G Network deals for Walmart and Disney
- Designed Samsung's Galaxy S21 Smartphone with Figma Mockups, influencing the executive team's direction for product messaging and visual display
